GitHub: https://github.com/942004 Mobile: +91-7847898609

SKILLS

- **Languages**: Python, C++, JavaScript, C, Java
- **Frameworks**: TensorFlow, Scikit-learn, HTML, CSS, Agile
- **Tools/Platforms**: Firebase, MySQL, AWS, OpenAI, NumPy, Pandas, MediaPipe, Matplotlib, Jira, Trello, Selenium
- **Soft Skills**: Problem-Solving, Team Player, Adaptability, Time Management

FREELANCING

NextGen Inova Private Limited Jun' 25 - Present
ML Engineer

- Developed backend workflows in Python, including model pipelines, recommendation endpoints, and scoring logic.
- Implemented efficient algorithms that improved **match relevance by 82%** for user recommendations.
- Built REST-style backend integrations to enable seamless communication between ML models and the application frontend.
- **Tech:** Python, TensorFlow, Scikit-learn, OpenAI

PROJECTS

Slow Learner Detection using Machine Learning GitHub Jul' 25 - Aug' 25

- Strengthened early identification of academically at-risk students, enabling timely interventions and improved academic outcomes
- Enhanced a high-performance classification model by analyzing multi-dimensional data including performance trends, attendance history, and behavioral engagement metrics.
- Refined the ability to flag at-risk students early, enabling proactive academic support and reducing the likelihood of dropout

  Tech: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Google Collab, Git/GitHub

Hand Gesture Recognition System GitHub Jun' 25 - Jul' 25

- Enabled seamless integration across devices through scalable edge deployment, privacy-first on-device processing, and cross-platform SDK support
- Engineered a high-performance pipeline using MediaPipe for precise hand-landmark detection, TensorFlow for real-time gesture classification, and OpenCV for frame normalization and noise reduction to ensure minimal latency.
- Delivered stable and accurate human-computer interaction across diverse lighting, orientations, and backgrounds, maintaining smooth responsiveness in dynamic environments.

  Tech: Python, OpenCV, Media Pipe, TensorFlow

CERTIFICATES

Computational Theory: Finite Automata Theory- Infosys – Certificate	Aug' 25
Cloud Computing – NPTEL – Certificate	May' 25
Fundamentals of Network Communication – University of Colorado – Certificate	Oct' 24
Peer-to-Peer Protocols and Local Area Networks – Certificate	Oct' 24

ACHIEVEMENTS

Secured Biweekly Contest Rating 1759 Nov' 25
Among 21k+ participants on LeetCode Biweekly Contest

Solved 150+ LeetCode problems Nov' 25
Improved skills in data structures and algorithms

Selected among the Top 30 teams in the Model Masters Expo Pre-Screening 2024 Jan' 24
Recognized for presenting an innovative project evaluated by the Department of Machine Learning

Awarded Vigyan Jyothi Scholarship- 2023 Aug' 23
Bestowed for academic merit and outstanding performance

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.95*** *Since Aug' 23*
- **Kendriya Vidyalaya Khurda Road** Khurda Road, Odisha
  Intermediate; ***Percentage: 86*** *Apr' 20 – Mar' 22*
- **Gouri Shankar English Medium School** Bhubaneswar, Odisha
  Matriculation; ***Percentage: 87*** *Apr' 18 – Mar' 20*
